

Meeting the Needs of the Techy World

at Brownsburg East and West Middle Schools

Sponsored in part by

Students impacted: 1,000 per year | Subject: Gateway to Technology

This BEF grant gives nearly 1,000 middle school students each year the opportunity to explore the basics of computer coding. Students use the Spheros robot platform in exciting and creative ways. These robots provide glimpse into the world of coding robots for variety of uses. The ability to use data from the coding platform provides enrichment or extra support for students who need it. These robots provide so much joy and excitement for learning! The students work in teams to actively solve problems while using the robots.
